

American hoverboards and how to customize hoverboard Segway

Hoverboard

A [hoverboard](#) (or hover board) was initially a fictional levitating board used for personal transportation, first described by author M. K. Joseph in a 1967 science fiction novel, and popularized by the Back to the Future film franchise. Since the 2010s, "hoverboard" has become a common term for a self-balancing scooter, though strictly speaking such devices do not hover.
